

Employee Enrichment Center—Gift of \$200,000

CCRI is committed to training and developing our team members so they can meet the growing demands of an ever-changing and diverse workforce. This area will offer an environment that provides team members with the knowledge and skills they need to deliver quality services so they can transform lives. Work stations with computer and internet will be available to allow opportunities to peruse training resources on-line as well as complete charting requirements. This important room will provide team members with the information they need and seek most often.

***Center for Learning
Gift of \$250,000***

The 2040 square foot activity/training room is a focal point of our new home and provides the people we support with access to a variety of educational programs while also serving as a spacious training center for our team members. The room can be

utilized as one large space or divided into three rooms using retractable walls, lending itself to a myriad of activities such as educational workshops, support groups, art and music therapy, and volunteer groups.

In the attached kitchen, participants learn the benefits of healthy eating as well as how to prepare meals themselves. This

learning space allows us to expand the number of participants in our cooking classes and to increase their knowledge of healthy eating.

Conference Room 1—Gift of \$200,000

This naturally-lit room on the east side of the building with state-of-the-art audiovisual amenities, provides ample meeting space for up to 22 team members and guests.

Conference Room 2—Gift of \$100,000

This room with state-of-the-art audiovisual opportunities provides a cozy space for meetings intended for less than 12 people client/team meetings and committee meetings.

Conference Room 3—Gift of \$75,000

This room is a comfortable and private space for client and team member meetings. It holds up to 12 people.

Therapy Rooms 1–3—Gift of \$100,000

These serene rooms provide both comfort and privacy for our clients who are working to regain stability in their lives. Our clinicians and practitioners guide them to map out the road for their unique mental and behavioral health needs.
